We've spent nearly a decade refining our outdoor kitchens. They have evolved into an exceptionally easy solution for creating a high-end outdoor kitchen without all the usual fuss. The end product is a clean, modern amenity that you won't find anywhere else. With proven, stainless steel storage components, beautiful counter options, and high-end grills, you will be happy with both the look and functionality of your new kitchen.

OUTDOOR KITCHENS **MADE EASY**

# CALEO 500

## 5' OUTDOOR KITCHEN

- 3/16" Thick powder coated aluminum frame
- Flush fitting access doors that match frame
- Select almost any desired grill (or no grill at all)
- Easy to install with adjustable toe-kick
- Beautiful counter options
- Interior floor lined with composite deck boards
- Optional LED toe kick lighting

If you're looking for a beautifully simple solution for basic outdoor cooking, this outdoor kitchen is for you. It is stylish without any extra fuss. Easy to install and easy to clean, the Caleo does its job without being overly flashy.

37.50"

30.00"

## 8' OUTDOOR KITCHEN

- 3/16" Thick powder coated aluminum frame
- High quality, stainless steel components
- Many component configurations available
- Clean, modern look
- Easy to install with adjustable toe-kick
- Beautiful counter options
- Interior floor lined with composite deck boards
- Optional LED toe kick lighting

The Ardeo 800 is a solid option for almost any outdoor space. It offers enough storage and work space options to be very functional without taking up too much space. Perfect for any deck or patio.

### 10' OUTDOOR KITCHEN

- 3/16" Thick powder coated aluminum frame
- High quality, stainless steel components
- Many component configurations available
- Clean, modern look
- Easy to install with adjustable toe-kick
- Beautiful counter options
- Interior floor lined with composite deck boards
- Optional LED toe kick lighting

The Ardeo 1000 offers more counter space for those outdoor living areas that can afford a little extra elbow room. This model offers all the same component options as the 800, just with some extra breathing room.

## 12' OUTDOOR KITCHEN

- 3/16" Thick powder coated aluminum frame
- High quality, stainless steel components
- Many component configurations available
- Clean, modern look
- Easy to install with adjustable toe-kick
- Beautiful counter options
- Interior floor lined with composite deck boards
- Optional LED toe kick lighting

Are you looking for an outdoor kitchen with more storage, room to work, and component options? The Ardeo 1200 will satisfy your needs. Use it to create a well-outfitted cooking and entertaining experience. Large grills feel right at home in the 1200. Need a little room for a countertop appliance like a pizza oven? This kitchen will handle it.

**ARDEO 1200-GCL**

## 10' L-SHAPED OUTDOOR KITCHEN

- 3/16" Thick powder coated aluminum frame
- High quality, stainless steel components
- Many component configurations available
- Clean, modern look
- Easy to install with adjustable toe-kick
- Beautiful counter options
- Interior floor lined with composite deck boards
- Optional LED toe kick lighting

This is our solution for a corner-fitting outdoor kitchen. Use it to fill the corner of a deck or patio or bring it out in the open to help define the space. Either way, it will shine.

## 10' L-SHAPED OUTDOOR KITCHEN with bar seating extension

- 3/16" Thick powder coated aluminum frame
- High quality, stainless steel components
- Many component configurations available
- Clean, modern look
- Easy to install with adjustable toe-kick
- Beautiful counter options
- Interior floor lined with composite deck boards
- Optional LED toe kick lighting

The Ardeo 1000-LS is essentially the same as the 1000-L with a countertop extension that allows for bar seating. It's a great way to entertain groups or to gather as a family. Let's face it, everyone wants to hang out by the grill anyway. That's where the action is.

**ARDEO 1000LS-GR**
